PRODUCT SPECIFICATION

REA 7 5X4/6P MB

Dextra
GROUP PLC

MADE IN BRITAIN®

INTRODUCTION

The REA7 5X4/6P MB is a Lighting control module (LCM) with a 5 way luminaire connection centre with a connection for a Reacta 7 sensor. Luminaires are connected using 4 pole black locking connection leads whilst the sensor is connected using 6 pole black/Black locking connection leads.

4 Pole pre-wired luminaire leads, 6 Pole sensor connecting leads and 4 or 6 pole male plugs are available separately.

FEATURES & BENEFITS

- Supply Power Source: 230V
- IP Rating: IP20
- Nominal voltage: 230V 50Hz
- Recommended circuit protection: 10Amp
- Maximum load per socket outlet: 6Amps
- Maximum total LCM load: 10Amps
- Supply terminal capacity: 4.0mm² (2 x 1.5mm2)
- Case material: Polycarbonate UL94 VO
- Case finish: Lightly sparked
- 5x Luminaire sockets black female connectors with locking rails.
- 1 x Sensor sockets blue/black female connectors with locking rails.
