

CASE STUDY

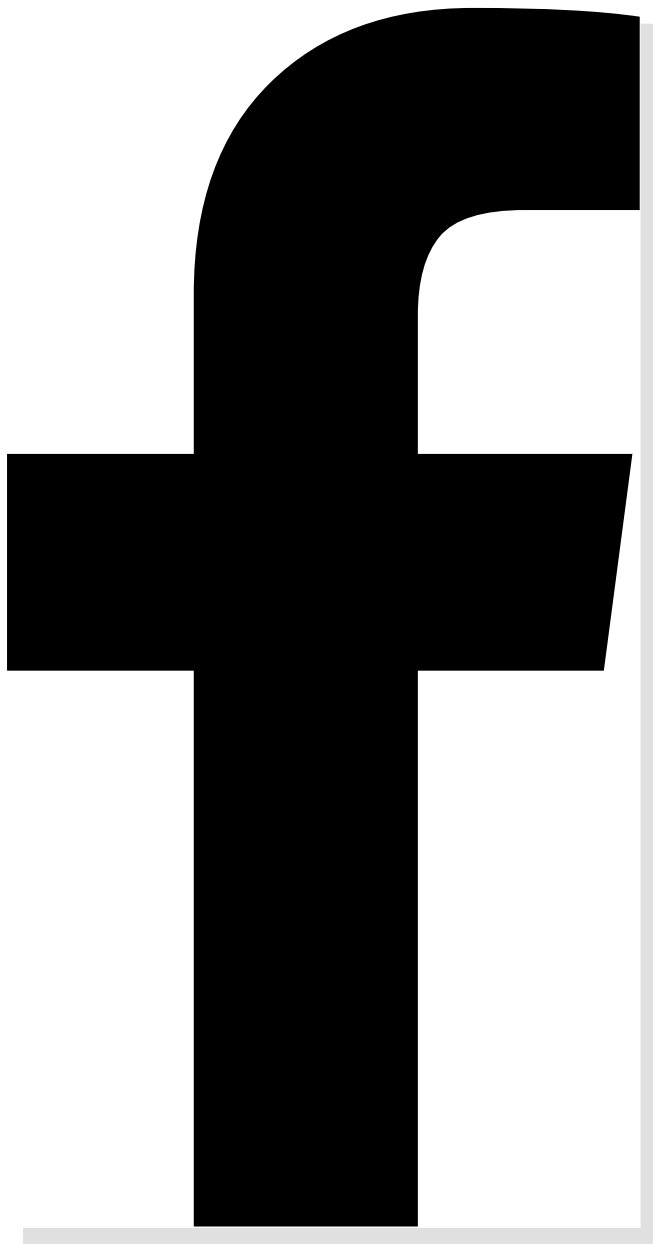

Alba Innovation Centre

The Alba Innovation Centre is located in Livingston, West Lothian and houses a number of exciting technology companies.

Dextra worked with Scottish Enterprise and contractor John G MacKintosh to upgrade the building's lighting to LED's from inefficient fluorescent lighting, including use of special external ground lights.

Scottish Enterprise is Scotland's national economic development agency, helping businesses to innovate and scale to transform Scotland's economy. Putting net zero at the heart of everything they do, the focus is on the areas where Scottish Enterprise can make the biggest difference - innovation, investment and international.

THE PRODUCTS

ECOPAK

The Ecopak offers increased energy efficiency and low maintenance of an LED source giving greater return on investment.

Specified in the circulation areas.

[EXPLORE PRODUCT RANGE](#)

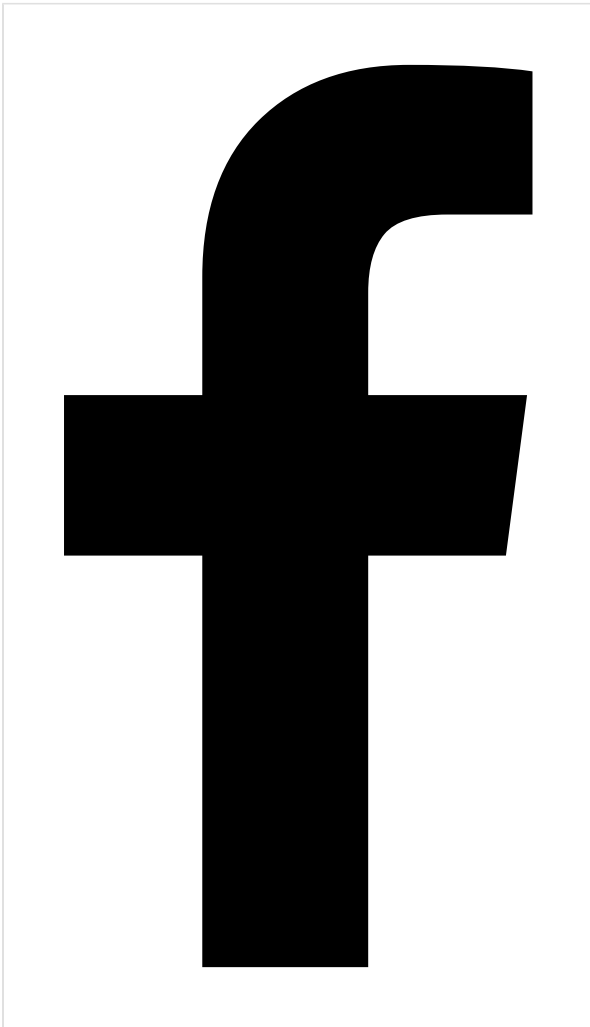

BTEC

The BTEC Downlight is ideal for customers who need a premium quality downlight with high quality LEDs and drivers as well as excellent efficiency for a rapid return on investment
