VERWOOD HUB

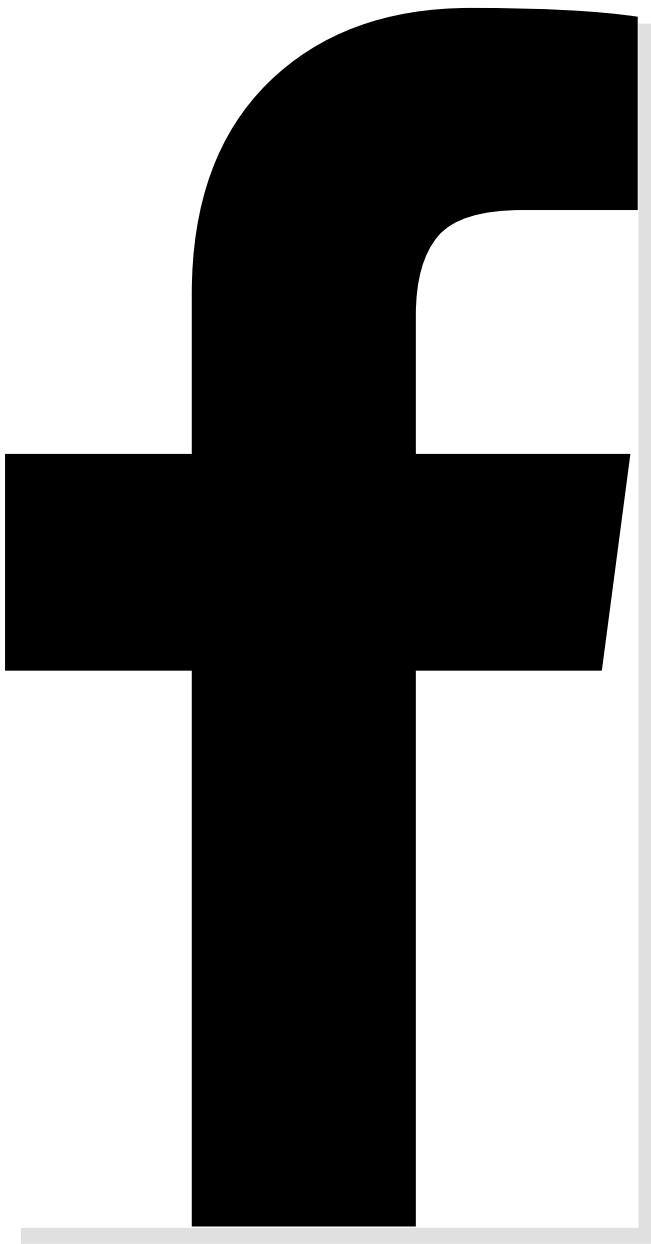

Verwood Hub is the hub of fitness, events and activities in Verwood, Dorset.

The venue offers live music, theatre, arts, conferences and workshops, children's activities, community based projects as well as a full digital, 7.1 surround sound cinema showing the latest movies. In addition to this, its leisure facilities include a gym with the latest technogym equipment, exercise fitness classes, studios, 3G football pitches, sports hall, 2 cafes, free parking and free Wifi.

Dorset Council wanted to replace existing fluorescent and cheap LEDs at Verwood Hub to improve efficiency and performance.

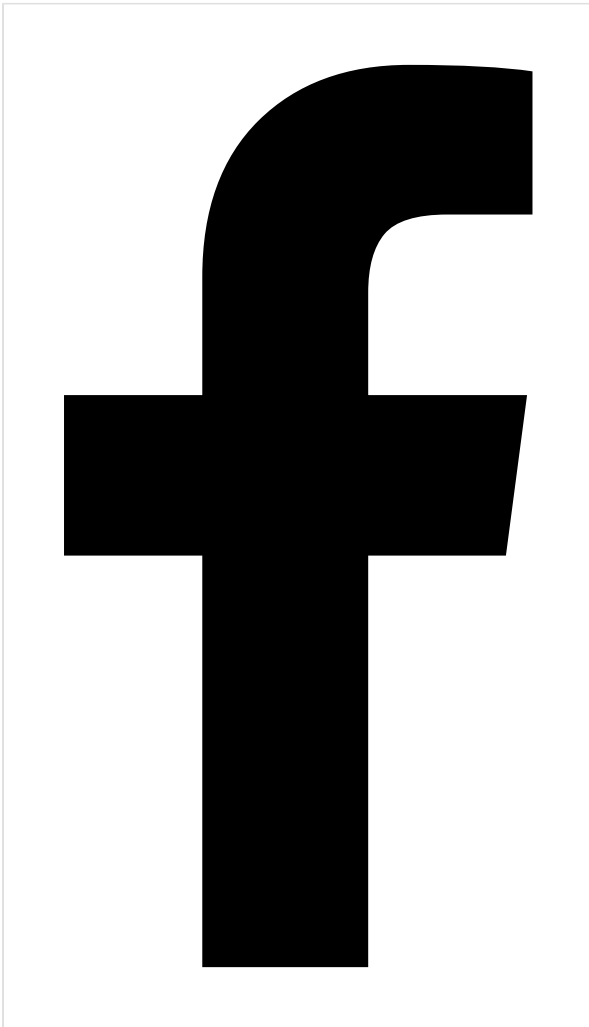

Working with Dorset Council and contractor Davison Electrical, Dextra supplied a number of different luminaires to help with aesthetics, performance and efficiency throughout the building, including the smaller rooms as well as the larger communal areas.
